Operation Terra: Messages from the Hosts of Heaven: A New Revelation on Earth Changes, ETs, the End Times, and the Journey to the New Earth, Terra, Vol. 1 Sara Lyara Estes

OPERATION TERRA is a remarkable series of prophetic messages that have been communicated telepathically to Sara Lyara Estes by a group of higher-dimensional beings who refer to themselves as the Hosts of Heaven. Sara has been studied by paranormal researchers, found to be 100% accurate in their telepathy experiments, and was featured on Walter Cronkite's 21st Century: "Miracle of the Mind." Her articles have been published in several magazines and she has a following numbering in the tens of thousands worldwide. This book is the first volume in the series. In it, the Hosts explain the events of our present time and tell us what to expect in the days ahead. They were the ONLY source of information that accurately anticipated the events of September 11, and their other predictions are also coming to pass. These Messages are neither "doom and gloom" or "pie in the sky." They are a compassionate, lucid, and scientifically valid commentary on these times, what we may expect, and how to cope with global change. In the days that followed after September 11, they literally saved lives, as people frantically searched to understand the madness of those events. They will be even more important to read in the dark days just ahead. PRAISE FOR OPERATION TERRA: ". these writings are among the most lucid, intelligent, reflective and poetic of this genre. . Considerable attention is given to the ships, which, it is explained, are living beings themselves. Also considered in depth is the relationship between humanity and divinity . Terra itself sounds a lot like most people's idea of heaven, but herein its nature and purpose are more precisely described than in most other writings. The wisdom writings-descriptions of who we really are and what we are doing here-are exceptionally thoughtful, inspiring and useful." -Southwest BookViews Vol. 3 No. 1, Winter 2004 "In addition to the overwhelming losses of life, property and security sustained through the shattering world events of September 11, 2001, many have also described the attacks on the United States as a wake up call to all of humanity. The human race has reached such levels of imbalance, inequality and unconsciousness over all the planet, that we are witnessing the unfolding of our own self-destruction right before our eyes. Where will it all lead? Where will it go from here? While no one can provide the answers to these questions with absolute surety, the messages presented [by Operation Terra] provide insightful perspectives on where we have come from and the possibilities of what is in store for humanity and planet Earth." -Spirit of Change magazine, January/February 2002
