The second series of Feminist Companions moves beyond the confines of sex- and gender-specific issues and studies of biblical women. Biblical feminist critics now address contemporary life situations, marginalization and a range of questions once not thought accessible to such critique. Feminist theory has also continued a rapid evolution. Among the topics included in this volume are composition, Torah, Ruth-the-Cat, female networking-together with much else to inform and stimulate female (and male) biblical scholars and non-scholars.
