Steward is a clone. A beta. His memories are fifteen years old, because his alpha never did have a brain-scan update. And in those fifteen years, the entire world has changed: The Orbital Policorp which held his allegiance has collapsed; dozens of his friends died in an off-planet war which he survived; an alien race has established relations with humanity; both his first and second wives have divorced him. And someone has murdered him.

Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a *New York Times* bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.
