Finally, a book about the Internet that takes place outside the Internet!

*Your Next-Door Neighbor is a Dragon* leaves the bleeps and bloops behind for a series of surreal interviews and adventures with the people behind the computer screen.

Something Awful's Zack Parsons risks life and sanity by meeting with people who believe they are real dragons and elves, attending a furry convention in costume, paying a visit to a white power group in Texas, talking shop with people who want to be swallowed whole, and witnessing the launching of the Ron Paul Blimp.

More than a year in the making, this epic adventure is full to bursting with the jokes about wieners and poopy that made Something Awful a true Internet sensation. Have you added the book to your cart yet or do you just hate yourself that much?
