Elementary Differential Equations, with ODE Architect CD

William E. Boyce, Richard C. DiPrima

Elementary Differential Equations, with ODE Architect CD William E. Boyce, Richard C. DiPrima

This revision of Boyce & DiPrima's text maintains its classic strengths: a contemporary approach with flexible chapter construction, clear exposition, and outstanding problems. Like previous editions, this revision is written from the viewpoint of the applied mathematician, focusing both on the theory and the practical applications of Differential Equations as they apply to engineering and the sciences. This is a perennial best seller designed for engineers and scientists who need to use Elementary Differential Equations in their work and studies. The CD-ROM includes: the award-winning ODE Architect software - the software's 14 modules enable you to build and solve your own ODEs, and to use simulations and multimedia to develop detailed mathematical models and concepts in a truly interactive environment; and the ODE Architect Companion - the Companion extends the ideas featured in each multimedia module. The web-based learning tools include: Review & Study Guidelines - the Chapter Review Guidelines will help you prepare for quizzes and exams; Online Review Quizzes - the quizzes enable you to test your knowledge of key concepts and provide diagnostic feedback that references appropriate sections in the text; PowerPoint Slides - you can print these slides out for in-class note taking; and, Getting Started with ODE Architect - this guide will help you get up-and-running with ODE Architect's simulations and multimedia.

From reader reviews:

Robert Brown:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite e-book and reading a e-book. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Elementary Differential Equations, with ODE Architect CD. Try to face the book Elementary Differential Equations, with ODE Architect CD as your friend. It means that it can to be your friend when you really feel alone and beside regarding course make you smarter than ever. Yeah, it is very fortunated in your case. The book makes you a lot more confidence because you can know everything by the book. So , let's make new experience along with knowledge with this book.

Mary Salas:

Reading a publication can be one of a lot of exercise that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people like it. First reading a reserve will give you a lot of new info. When you read a publication you will get new information since book is one of a number of ways to share the information or maybe their idea. Second, reading through a book will make you actually more imaginative. When you studying a book especially hype book the author will bring someone to imagine the story how the personas do it anything. Third, it is possible to share your knowledge to other people. When you read this Elementary Differential Equations, with ODE Architect CD, you may tells your family, friends as well as soon about yours publication. Your knowledge can inspire others, make them reading a e-book.

Larry Davis:

The particular book Elementary Differential Equations, with ODE Architect CD has a lot associated with on it. So when you make sure to read this book you can get a lot of benefit. The book was authored by the very famous author. This articles author makes some research ahead of write this book. This kind of book very easy to read you can find the point easily after reading this article book.

Roberta Anglin:

This Elementary Differential Equations, with ODE Architect CD is brand new way for you who has curiosity to look for some information since it relief your hunger info. Getting deeper you upon it getting knowledge more you know or perhaps you who still having small amount of digest in reading this Elementary Differential Equations, with ODE Architect CD can be the light food in your case because the information inside this specific book is easy to get by simply anyone. These books build itself in the form which can be reachable by anyone, yes I mean in the e-book form. People who think that in book form make them feel tired even dizzy this book is the answer. So you cannot find any in reading a reserve especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss this! Just read this e-book kind for your better life along with knowledge.
