The Dragon Lucy Blue

Short story; historical/fantasy romance. Celtic witch Rowan is taken from her Saxon captors by the Romans and given as a spoil of war to Titus, a Roman general. He treats her tenderly, but she is determined to be free. But when Titus is surrounded by traitors, she has to decide. Should she take advantage of the confusion and escape or use her magic to save him? Possible trigger warning: Some of the sexual activity described is not what I'd call consensual. While it falls far short of rape, readers with a particular sensitivity in this area might find it upsetting.
