Curbside Consultation in Glaucoma: 49 Clinical Questions

Curbside Consultation in Glaucoma: 49 Clinical Questions

Are you looking for concise, practical answers to those questions that are often left unanswered by traditional glaucoma references? Are you seeking brief, evidence-based advice for common clinical dilemmas?

Curbside Consultation in Glaucoma: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a “curbside consultation” between glaucoma specialists.

Dr. Dale K. Heuer, and associate editors Dr. Steven J. Gedde and Dr. Richard Lewis, have designed this unique reference in which top glaucoma specialists offer expert advice, preferences, and opinions on tough clinical questions commonly associated with the day-to-day diagnosis and care of glaucoma patients. The unique Q&A format provides quick access to current information related to glaucoma with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references are included to enhance the text and to illustrate glaucoma pearls.

Curbside Consultation in Glaucoma: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume glaucoma specialists will appreciate. General practitioners, residents, fellows, and optometrists alike will benefit from the user-friendly and casual format and the expert advice contained within.

Some of the questions that are answered:

- Which imaging device should I use in my practice?
- How should I set a target intraocular pressure?
- What is “maximum medical therapy” for glaucoma now?
- Which glaucoma medications may be used safely during pregnancy? In children?
- Is selective laser trabeculoplasty better than argon or diode laser trabeculoplasty?
- Which of the new incisional surgical alternatives to trabeculectomy should I consider for my patients? In what clinical settings should I consider them?
- In which patients with glaucoma and cataract should I perform a combined procedure? Cataract surgery alone? Trabeculectomy first?
