Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation Kacey Edward Kemmerer

The Network Centric Warfare approach to command and control emphasizes decentralized decision making. Consequently, decision makers must comprehend and evaluate information to determine the optimal course of action. This study examines how different categories of uncertainty (ambiguous/missing, conflicting, baseline) and individual differences affect response time in decision making tasks. The researchers elicited real-world tactical scenarios from veterans of Operation Enduring Freedom and Operation Iraqi Freedom in which uncertainty was present. Nine scenarios were given to 28 participants at the Command General Staff College, FT Leavenworth, KS. The participants were asked to make a decision; their responses were recorded and analyzed. The results indicate that the category of uncertainty and scenario difficulty are significant factors in determining response time. No individual difference factors were found to be significant. These findings have the potential to improve human behavior modeling, tactical simulations, and representations of complex task environments.

From reader reviews:

Michael Burnette:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite publication and reading a e-book. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation. Try to face the book Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation as your buddy. It means that it can for being your friend when you experience alone and beside those of course make you smarter than previously. Yeah, it is very fortunated to suit your needs. The book makes you more confidence because you can know every thing by the book. So , let us make new experience along with knowledge with this book.

Dolores Wade:

In this 21st hundred years, people become competitive in every way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the crowded place and notice by surrounding. One thing that occasionally many people have underestimated it for a while is reading. Yep, by reading a e-book your ability to survive boost then having chance to stand up than other is high. For yourself who want to start reading a book, we give you this Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation book as starter and daily reading book. Why, because this book is usually more than just a book.

Millard Lopez:

Do you certainly one of people who can't read enjoyable if the sentence chained inside the straightway, hold on guys this specific aren't like that. This Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation book is readable by means of you who hate those perfect word style. You will find the details here are arrange for enjoyable studying experience without leaving even decrease the knowledge that want to deliver to you. The writer regarding Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation content conveys thinking easily to understand by many individuals. The printed and e-book are not different in the written content but it just different available as it. So , do you nonetheless thinking Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation is not loveable to be your top listing reading book?

Joseph Yancey:

Information is provisions for those to get better life, information presently can get by anyone on everywhere. The information can be a understanding or any news even an issue. What people must be consider any time those information which is inside the former life are challenging to be find than now could be taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you find

the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Tactical Decision Making Under Categorical Uncertainty with Applications to Modeling and Simulation as the daily resource information.
