Seminar paper del año 2010 en el tema Romanística - Español, literatura, cultura general, Nota: 3, Universität Duisburg-Essen (Romanistik), Materia: El español coloquial, Idioma: Español, Resumen: La lengua oral es la producción de sonidos para la comunicación. Es consustancial al ser y es la más común de las formas de comunicación. El signo más importante de la oralidad es el acústico. En el acústico hay otros elementos fundamentales para la comunicación; como las pausas, la entonación y el acento. La lengua oral tiene también como la lengua escrita sus reglas propias, principios y estrategias. Pero la mayoría de los usuarios del lenguaje no sabe que la lengua oral tiene también reglas, estrategias y principios propios. Muchas personas que usan la lengua como la lengua materna no pueden transcribir sus dichos orales. Dentro del oral, el lenguaje coloquial es la modalidad más frecuente. Esa variedad hay que distinguir de la lengua hablada formal la que se usa en conferencias o en discursos...etc. La lengua coloquial es espontánea y los hablantes de esa lengua no disponen de mucho tiempo para elegir la palabras y las frases. El objeto general de esta investigación es especificar las características de la lengua coloquial y analizar una conversación coloquial según métodos lingüísticos. En muchas conversaciones orales no se puede notar que la frase es falsa. Es decir que la oralidad no es una forma escrita falsa, sino es un sistema que tiene sus reglas propias. El presente trabajo se trata del tema de la lengua coloquial en España. Después de explicar en la primer parte la definición de la lengua coloquial va a presentar en los capítulos siguientes temas como los rasgos de la lengua coloquial y la ficha técnica, va a continuar con una transcripción de un texto cotidiano con un análisis y por último va a finalizar con una conclusión.
