High-Dimensional Indexing: Transformational Approaches to High-Dimensional Range and Similarity Searches (Lecture Notes in Computer Science) Cui Yu

In this monograph, we study the problem of high-dimensional indexing and systematically introduce two efficient index structures: one for range queries and the other for similarity queries. Extensive experiments and comparison studies are conducted to demonstrate the superiority of the proposed indexing methods. Many new database applications, such as multimedia databases or stock price information systems, transform important features or properties of data objects into high-dimensional points. Searching for objects based on these features is thus a search of points in this feature space. To support efficient retrieval in such high-dimensional databases, indexes are required to prune the search space. Indexes for low-dimensional databases are well studied, whereas most of these application specific indexes are not scaleable with the number of dimensions, and they are not designed to support similarity searches and high-dimensional joins.

From reader reviews:

Glen Hoffman:

Reading a reserve can be one of a lot of action that everyone in the world likes. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a guide will give you a lot of new information. When you read a guide you will get new information since book is one of a number of ways to share the information or their idea. Second, reading through a book will make you actually more imaginative. When you reading through a book especially hype book the author will bring one to imagine the story how the people do it anything. Third, you may share your knowledge to other people. When you read this High-Dimensional Indexing: Transformational Approaches to High-Dimensional Range and Similarity Searches (Lecture Notes in Computer Science), you can tells your family, friends and soon about yours publication. Your knowledge can inspire different ones, make them reading a e-book.

Alice Black:

The guide with title High-Dimensional Indexing: Transformational Approaches to High-Dimensional Range and Similarity Searches (Lecture Notes in Computer Science) contains a lot of information that you can discover it. You can get a lot of benefit after read this book. This book exist new understanding the information that exist in this e-book represented the condition of the world today. That is important to yo7u to find out how the improvement of the world. That book will bring you within new era of the syndication. You can read the e-book with your smart phone, so you can read the idea anywhere you want.

William Bottoms:

Reading a book to get new life style in this season; every people loves to learn a book. When you go through a book you can get a lot of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, as well as soon. The High-Dimensional Indexing: Transformational Approaches to High-Dimensional Range and Similarity Searches (Lecture Notes in Computer Science) offer you a new experience in reading a book.

Eric Rodriguez:

Reading a reserve make you to get more knowledge from it. You can take knowledge and information from the book. Book is written or printed or illustrated from each source which filled update of news. Within this modern era like right now, many ways to get information are available for a person. From media social including newspaper, magazines, science e-book, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just searching for the High-Dimensional Indexing: Transformational Approaches to High-Dimensional Range and Similarity Searches (Lecture Notes in Computer Science) when you needed it?
