The world is not what it seems.

Michael Bishop is an Asset of the Facility - a job that comes with many strange perks. He is a man who never gets ill, who never pays taxes. He is effortlessly fit and has a different woman every night of the week.

That is, when he is not on assignment.

When activated, Michael becomes Asset 108, a cyberenhanced human who stands against the strange darkness that lurks at the edge of our world. Armed with equipment that most would find impossible to comprehend, he is sent on missions both strange and deadly. Each dossier pits him against irrational creatures and beings - most with the power to unravel his sanity or reality itself. It's never a simple job.

This job, however, is more complex than most. Mysterious, unknown targets are fracturing reality somewhere in the middle of the Mojave Desert. The Facility has no other Assets in the area, and their telemetry is spotty at best. Without knowing what to expect, Bishop is activated, assigned to a cadre, and sent to the middle of nowhere.

What he finds there is both the beginning and the end.
