NOTE, this is NOT a politically correct novel.

Near the end of the current President's term, China and Russia decide the time will never be better to take down America. They know the current administration has run down and demoralized the military. Half of American navy's mighty aircraft carriers are in out of service for repairs, the Army is the smallest it's been eighty years. The average age of the US Air Force fighters is over 25 years old. The AF is down to less than 100 nuclear bombers from a high of 600. Their war plan, Operation Whirlpool was to launch a surprise nuclear attack to knock out America. War usually plans end up in the trashbin when the enemy is engaged. Operation Whirlpool ran into an unexpected situation. The American's weren't as surprised as the Chinese and Russians thought. A US Navy attack submarine stumbled upon the Russian and Chinese SSBN's sneaking up on the American coast.

When the first missiles fly, the world explodes in war as old hatreds flare up.

The story is told by a Russian historian who was selected by the Russian President to record the shortest war in history, which will leave Russia ruling the surviving world.
