When should you acquire a target or enter a new business? How do you go about structuring and valuing leveraged buyout transactions? What do you do if the application of the weighted average cost of capital approach is not correct? Answers to these commonly encountered valuation problems and more are given right here in this complete valuation toolkit for mergers, buyouts, and restructuring. Enrique Arzac, an internationally recognized authority on the subject, provides an up-to-date, comprehensive synthesis of current valuation theory and practice, including free cash flow valuation, financing and valuation of leveraged buyouts, real option analysis for entry and exit decisions, contract design to resolve disagreements about value, and the valuation of special offer structures.
