Pathology and Genetics of Tumours of the Breast and Female Genital Organs (IARC WHO Classification of Tumours)

The International Agency for Research on Cancer

This WHO classification covers the female and male breast, ovaries, fallopian tumors, uterine cervix, uterine corpus, vulva, vagina and inherited tumor syndromes. It includes a comprehensive classification of benign and malignant neoplasms. Targeted readership includes pathologists, gynaecologists, surgeons, oncologists, and basic scientists. Similar to the previous volumes of the series, the book includes numerous color photographs, magnetic resonance images, CT scans and charts. In addition to its pathology and genetics, each lesion is described with its epidemiology, etiology, clinical features, as well as prognosis and predictive factors.

This book is in the series commonly referred to as the "Blue Book" series.
