Handbook of Autism and Pervasive Developmental Disorders

Donald J. Cohen, Anne M. Donnellan

Handbook of Autism and Pervasive Developmental Disorders Donald J. Cohen, Anne M. Donnellan

The first major handbook on autism and related developmental disorders, presenting chapters written by leading contributors to the field with national and international reputations. It brings together the major lines of research findings from several related disciplines, descriptive and diagnostic characteristics, intervention methods and legal and social issues. The syndrome is looked at from several perspectives - psychological, biological, neurophysiological, pharmacological and biochemical. A separate section deals with issues of educating the autistic individual, including academic training, social skills, language and vocational skills. The final section, called "Perspectives," includes chapters by eminent scholars outside the field of autism research who provide their unique points of view on topics raised in the preceding sections.

From reader reviews:

James Reveles:

What do you think about book? It is just for students because they are still students or this for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has distinct personality and hobby for each other. Don't to be pushed someone or something that they don't need do that. You must know how great and important the book Handbook of Autism and Pervasive Developmental Disorders. All type of book can you see on many options. You can look for the internet methods or other social media.

Melvin Bragg:

Handbook of Autism and Pervasive Developmental Disorders can be one of your starter books that are good idea. Most of us recommend that straight away because this e-book has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort to set every word into pleasure arrangement in writing Handbook of Autism and Pervasive Developmental Disorders but doesn't forget the main position, giving the reader the hottest and also based confirm resource information that maybe you can be one among it. This great information can certainly drawn you into brand new stage of crucial imagining.

Charles Shin:

Reading a book being new life style in this year; every people loves to learn a book. When you study a book you can get a lot of benefit. When you read publications, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, and also soon. The Handbook of Autism and Pervasive Developmental Disorders offer you a new experience in looking at a book.

Lily Spivey:

As a student exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just small students that has reading's internal or real their pastime. They just do what the educator want, like asked to the library. They go to presently there but nothing reading really. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Handbook of Autism and Pervasive Developmental Disorders can make you sense more interested to read.
