Emerging Technological Risk: Underpinning the Risk of Technology Innovation

Stuart Anderson, Massimo Felici

Emerging Technological Risk: Underpinning the Risk of Technology Innovation Stuart Anderson, Massimo Felici

Classes of socio-technical hazards allow a characterization of the risk in technology innovation and clarify the mechanisms underpinning emergent technological risk. *Emerging Technological Risk* provides an interdisciplinary account of risk in socio-technical systems including hazards which highlight:

- How technological risk crosses organizational boundaries,
- How technological trajectories and evolution develop from resolving tensions emerging between social aspects of organisations and technologies and
- How social behaviour shapes, and is shaped by, technology.

Addressing an audience from a range of academic and professional backgrounds, *Emerging Technological Risk* is a key source for those who wish to benefit from a detail and methodical exposure to multiple perspectives on technological risk. By providing a synthesis of recent work on risk that captures the complex mechanisms that characterize the emergence of risk in technology innovation, *Emerging Technological Risk* bridges contributions from many disciplines in order to sustain a fruitful debate.

Emerging Technological Risk is one of a series of books developed by the Dependability Interdisciplinary Research Collaboration funded by the UK Engineering and Physical Sciences Research Council.
