Microprocessors and Interfacing A.P.Godse, D.A.Godse

An overview of 8085, Architecture of 8086, Microprocessor, Special functions of general purpose registers, 8086 flag register and function of 8086 flags. Addressing modes of 8086, Instruction set of 8086, Assembler directives simple programs, Procedures, and Macros. Assembly language programs involving logical, Branch and Call instructions, Sorting, Evaluation of arithmetic expressions, String manipulation. Pin diagram of 8086-Minimum mode and maximum mode of operation, Timing diagram, Memory interfacing to 8086 (Static RAM and EPROM), Need for DMA, DMA data transfer method, Interfacing with 8237/8257. 8255 PPI-Variou modes of operation and interfacing to 8086, Interfacing keyboard, Displays, Stepper motor and actuators, D/A and A/D converter interfacing. Interrupt structure of 8086, Vector interrupt table, Interrupt service routines, Introduction to DOS and BIOS interrupts, 8259 PIC architecture and interfacing cascading of interrupt controller and its importance. Serial data transfer schemes, Asynchronous and synchronous data transfer schemes, 8251 USART architecture and interfacing, TTL to RS 232C and RS232C to TTL conversion, Sample program of serial data transfer, Introduction to High-speed serial communications standards, USB. 8051 Microcontroller architecture, Register set of 8051, Modes of timer operation, Serial port operation, Interrupt structure of 8051, Memory and I/O interfacing 8051.

From reader reviews:

Julie Gailey:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to be aware of everything in the world. Each book has different aim or perhaps goal; it means that reserve has different type. Some people experience enjoy to spend their time for you to read a book. They may be reading whatever they have because their hobby is definitely reading a book. How about the person who don't like studying a book? Sometime, individual feel need book if they found difficult problem or even exercise. Well, probably you should have this Microprocessors and Interfacing.

Elizabeth Murphy:

What do you concerning book? It is not important together with you? Or just adding material when you want something to explain what yours problem? How about your spare time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have free time? What did you do? Every person has many questions above. They must answer that question simply because just their can do that will. It said that about publication. Book is familiar in each person. Yes, it is correct. Because start from on kindergarten until university need this Microprocessors and Interfacing to read.

Cheryl Alexander:

In this 21st one hundred year, people become competitive in each way. By being competitive today, people have do something to make these people survives, being in the middle of the particular crowded place and notice through surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yep, by reading a publication your ability to survive raise then having chance to remain than other is high. For you personally who want to start reading a new book, we give you this particular Microprocessors and Interfacing book as basic and daily reading publication. Why, because this book is more than just a book.

Nicolas Dandrea:

Some people said that they feel weary when they reading a book. They are directly felt the item when they get a half parts of the book. You can choose typically the book Microprocessors and Interfacing to make your reading is interesting. Your skill of reading skill is developing when you just like reading. Try to choose very simple book to make you enjoy you just read it and mingle the impression about book and looking at especially. It is to be initially opinion for you to like to open up a book and study it. Beside that the reserve Microprocessors and Interfacing can to be your brand-new friend when you're truly feel alone and confuse with what must you're doing of their time.
