Observatory Mansions: A Novel Edward Carey

Once the Orme family's magnificent ancestral estate, Observatory Mansions is now a crumbling apartment complex, home to an eccentric group of misfits. One of them is Francis Orme, who earns his livelihood as a living statue. When not practicing "inner and outer stillness," Francis steals the cherished possessions of others to add to his private museum. The other tenants are equally as odd: his mother and father, who haven't interacted in years; a man who continually sweats and cries; a recluse who prefers television to reality; and a woman who behaves like a dog. When Anna Tapp arrives among them she stirs their souls, bringing long forgotten memories to the surface—and arousing fears that this new resident intends to provoke a metamorphosis.

Reminiscent of Beckett, Ionesco, and Millhauser but startlingly original, **Observatory Mansions** is also unexpectedly beguiling. Upon its publication in England, it was a literary sensation, and John Fowles called it "easily the most brilliant fiction I've seen this year."
