Stamp Market Quarterly for People's Republic of China: Current Market Values for Professional Stamp Experts Graded Stamps in Chinese & English Scott Murphy

A Price Guide for People's Republic of China postage stamps that have been graded by Professional Stamp Experts, Inc. The estimated values in the SMQ and SMV are meant to be a buying guide for you. They represent the average dealer asking prices known to us, i.e. what a knowledgeable dealer would probably charge you for a stamp. The values listed herein are for PSE-graded stamps. Stamps graded by other third-party services may not be worth as much as PSE-graded stamps. And of course stamps that have not been expertized and graded by a third-party service can vary widely in quality and value. If a dealer or another expertizing service has graded a particular stamp "XF", this does not mean that it is worth the XF value shown in this guide. The SMQ/SMV are produced four times per year, printed twice a year in winter and summer and available on-line as an e-zine in Spring and Fall. Values are also available on line as prices change, at GRADINGMATTERS.com. Most of the stamps listed in this guide are valued for several of the grades in the PSE grading system. These range from Average-50 to Superb-98. For mint stamps, the assigned grade in the PSE system is independent of the stamp's gum condition and the gum condition is added to the assigned grade as a modifier. This guide contains prices for four of PSE's gum conditions, namely NH (never hinged), OGph (original gum, previously hinged), NG (no original gum), and NGAI (no gum as originally issued). We make an effort to keep values up-to-date and accurate. However, we make no guarantee or representation as to the accuracy of values listed in the Stamp Market Quarterly. Also note that PSE offers only an opinion as to a stamp's authenticity, attribution and grade. PSE does not guarantee this opinion in any way.
